Dear Senator Essmann:

Sorry that I am unable to testify on this bill regarding setting geographic limitations on where sexual offenders may reside. As mentioned to you previously, we have an sexual offender who is expecting to be released from prison shortly and move back into my neighborhood. Across the street from the offender's resident is a church which houses a pre-school. Also there is another church facility away has a private school with multiple grades. Bother facilities are within 200 feet of the offender's residence.
